

THERMO ELECTRIC

Thermo Electric Company, Inc.

PRESS RELEASE

**Appointment of Jaspreet Singh as
Regional Sales Manager**

June, 2009

www.TE-direct.com

THERMO ELECTRIC is pleased to announce the appointment of Mr. Jaspreet Singh as its newly designated Regional Sales Manager serving the Indian sub-continent, the Mid-East and the South Asian Markets.

Mr. Singh was formerly the Thermo Electric New Delhi Office Sales Manager from 2000 through 2006. Since that time he has been managing the sales activities of a pharmaceutical corporation in India, but never lost contact with his friends at Thermo Electric.

Mr. Singh returns to TE to manage our increasing business development efforts in this all important Regional Market. A Mechanical Engineer by profession, with an extraordinary knowledge of the temperature sensor product, Jaspreet fits the profile of a true TE “professional” dedicated to enhancing the company’s knowledge and expertise in the temperature sensor field.

It is with great affection and great optimism for the future that all members of the management team welcome his return to Thermo Electric! Jaspreet promises to be the central player in the unfolding of our “India Project” which will include a soon to be established regional manufacturing facility.

For over a half century TE has been active in India and its Regional Markets. From Bangladesh to Singapore, from Saudi Arabia to Egypt the name of Thermo Electric is known as a leader in Temperature Sensors. While Thermo Electric’s business activity within India and the Region continues to grow, we have every confidence that Jaspreet will be successful in generating even more business opportunities for TE in the challenging years ahead.

In his capacity as the Regional Sales Manager he will report to Mr. Jose Alberto, Chief Marketing Officer of Thermo Electric.

For those wishing to contact Jaspreet he can be reached at jsingh@te-direct.com
