Thermo Electric Company, Inc.

**PRESS RELEASE**

MACO Corporation appointed TE

Agent in India

June, 2009

[www.TE-direct.com](http://www.TE-direct.com)

THERMO ELECTRIC is pleased to announce the appointment of;

*MACO Corporation (India),  
In conjunction with its US affiliate,  
SUNAG Corporation (USA) as a  
Thermo Electric Agent in India.*

With the Sales, Engineering and Manufacturing support of our global network of Thermo Electric Companies, as well as our soon to be established subsidiary in India, MACO & SUNAG Corporations will be empowered to quote and deliver the broadest array of Thermo Electric products to meet the needs of the expanding Indian Market for industrial temperature sensors.

For many years MACO Corporation has provided the Indian industrial market with engineering expertise and product support. In its own words;

*“With ten branch offices strategically located at key industrial sites throughout India, MACO Corporation (India) has a talented pool of professionals with a broad experience in various engineering fields and provides engineering, design, commercial and after sales service support to its customers according to their specific requirements. In addition, associate offices in the USA and the UK act as a bridge between overseas manufacturers and our local offices in India.*

*Today, Indian industry is meeting the benchmark of global excellence. With that in mind MACO Corporation (India) is working with a mission to bring to its Indian customers the latest technology, products and engineering expertise currently available in the global marketplace. The addition of Thermo Electric to the list of our manufacturing partners, with its long and established reputation as the Global Leader in the Manufacture and Design of industrial temperature sensors, is in keeping with management’s desire to provide the best in excellence and product delivery to our Indian customer base”*

Thermo Electric is confident that our new Agent will strengthen our ability to service our many current and future customers throughout the Indian subcontinent.
